

Group Entry into the National Flight Log

The contribution for group entry into the National Flight Log is \$500 and includes:

1. The introductory logo screen:
 - A finished color or black and white graphic can be scanned into the computer for the Log. Submissions cannot be larger than 8" × 10".
 - As an alternative, consider submitting color or black and white photographs of the squadron aircraft or the squadron's logo or patch. Please identify the type of aircraft associated with your squadron, if applicable.
2. The squadron history, no longer than one and one half single-spaced typed letter-sized pages, as submitted with the applications by a squadron member.
3. The squadron roster, not longer than 100 names with rate/ranks. Names may be annotated with short explanations (i.e.: "Killed in Action"). If your list cannot be condensed to 100 names, an alternative suggestion is to list the names of Commanding Officers, or of the major combat actions attended by the squadron.
4. For an additional contribution, group entries can be customized. The fee would be determined on how much additional information the group wishes to enter, (i.e. additional information screens).

To submit a squadron into the National Flight Log, obtain copies of the NFL brochure, or gather any additional information, please write or call:
